

Rescue handle for emergency dragging

Ergonomic shoulder straps distribute weight away from the neck muscles

Wireless Heads-Up Display for cylinder pressure and PASS status

Integrated breathing valve with unique ambient air hatch

Swiveling and adjustable waist pad

Integrated PASS and SCBA computer, and mechanical pressure gauge

Lights positioned around SCBA for 360° visibility

Docking device protects the cylinder valve from impact

The Spiromatic™ S8 SCBA

Makes the heavy weight of duty feel lighter than ever

Your SCBA is your life insurance. Above all it must be built to withstand the toughest conditions, but the less you have to think about it being there, the more freedom you will have to do your duty. With a Spiromatic S8 you will not only feel less restrained, you will breathe easier too. The ergonomic harness distributes the air cylinder's weight perfectly, while its regulator system delivers industry-leading air flow rates along with the lowest breathing resistance of any NFPA approved SCBA.
