

The Incurve™ SCBA

Wear it for your health, not just for safety

Long after leaving a fire scene, fire-fighters can be exposed to toxic and carcinogenic agents contaminating their personal protective equipment. To reduce this risk of long-term health problems, we developed a SCBA for all cylinder types, with an absolute minimum of textile parts, making it less susceptible to contamination as well as easier to clean. As an added bonus, it's probably the world's most comfortable harness.
