

» Interspiro in the Papers

FIRE FIGHTING Interspiro's SpiroGuide concept was recently featured in an article in the Swedish Firefighters Associations magazine "Swedish Firefighters".

The article headline was "New technology on reliable equipment" and the text described the function of the wireless Heads Up Display (HUD), the unit's automatic start-up test and the "black box" – the Breathing Apparatus Computer (BAC).

The magazine reaches the majority of Swedish firefighters, fire chiefs and security personnel.

» New CE Approval

APPROVALS In May the full range of the QS/SpiroGuide System and the 90U System was CE approved. Included in this new CE approval are for example the new adjustable QS harness and the three new S-mask versions; S-ESA, S-PE and S-N.

Certifying body for this EC type examination was DECRA EXAM GmbH in Germany.

» New S-mask and Breathing Valve

FIRE FIGHTING Interspiro's new S-mask versions are currently promoted around Europe together with the SpiroGuide under the slogan "Safety is when you can concentrate on what's essential".

The three new S-mask and breathing valve versions are:

- S-ESA – with positive pressure and ESA connection
- S-PE – with positive pressure and threaded M45x3 connection
- S-N – with normal pressure and threaded Rd40 connection

German and Dutch version of a S-mask & SpiroGuide advert.

» New Corporate Presentation

INTERSPIRO A new version of the Interspiro Corporate Presentation slideshow was recently released.

(This presentation is now available on the internal "Shared" network server.)
